SCREW CONVEYORS

Conveyors manufactured by FSI in India are designed to meet the rigorous demands of the Oil & Gas industry. These robust and efficient systems ensure seamless material handling, minimize operational downtime, and enhance productivity. Each screw conveyor consists of 6' or 12' sections that can be bolted together and customized to fit your application. We manufacture screw conveyors using carbon steel, abrasion-resistant steel, stainless steel, or other alloys to meet specific requirements. Additionally, we can design multiple inlets and discharges to suit your needs.

FEATURES :

- Available from 6" to 24" diameter
- Explosion proof electric design
- Rugged & reliable
- High performance
- Low maintenance
- Safety cable

AGITATORS

Agitators manufactured by FSI in India use an impeller to mix and suspend solids through both axial and radial flows while utilizing low-shear mixers to prevent particle size degradation and polymer shear in mud additives. Unlike centrifugal pumps or mud guns, the FSI Agitator is a low-shear, low-energy device, making it easy to operate and cost-effective to maintain.

FEATURES :

- Compact design
- Quiet, vibration free
- Single reduction worm gear drive
- Low maintenance
- Direct, flexi-couple drive system
- Explosion proof electrical system
- 50% better shock resistance than helical and bevel gears
- HP Available- 7.5, 10, 15, 20, or 25 HP
- Vertical or Horizontal
